

Semester	Study track: Small Craft	ECTS
	Students start: DTU	
	Prerequisite: BSc Naval Architecture	
1 Autumn DTU (2019)	41221 Ship propulsion and manoeuvring	10
	41222 Wave loads on ships and offshore structures	5
	41275 Ship operations	5
	46420 Composite materials and fibres	5
	02431 Risk management	5
2 Spring DTU (2020)	42490 Technology, management, organisation and business models	10
	41315 Applied CFD	5
	41317 Computational fluid dynamics	5
	41514 Dynamics of machinery	5
	Electives (choose one):	5
41237 Dynamics of structures: theory and analysis	(5)	
46411 Design of large composite structures	(5)	
3 Autumn KTH (2019/ 2020)	SD2705 High speed craft	6
	SD2709 Underwater technology	7.5
	SD2711 Small craft design	10
	Electives:	
	SD 2416 Structural optimization and sandwich design	(6)
	SD2724 Minor marine technology project	(3)
AK2030 Theory of science	(4.5)	
4 Spring KTH (2020/1)	Master Thesis, KTH	30

26 August 2019
